

Ultracoat Clean Polish

**Special product
for maintaining and
protecting varnished
wooden floors**

MAINTENANCE

Ultracoat Clean Polish is a ready-to-use product which may be diluted according to requirements. It has been specially developed for the maintenance of residential and commercial wooden floors varnished with the water-based varnishes of the **Ultracoat** line.

It gives the surface of floors a bright, shiny finish and also increases the protection against wear by forming a water-repellent film.

- Developed specifically for treating wooden floors coated with the water-based varnishes of the **Ultracoat** line.
- Suitable for both residential and commercial environments.
- Increases the level of protection against wear.
- High resistance to scratches caused by footsteps.
- No polishing required.

Cleaning and maintenance of floors with a low volume of traffic

Before applying the product, the surfaces to be treated must be thoroughly cleaned to remove all traces of dirt, dust, etc. Use **Ultracoat Universal Clean** for final cleaning.

Dilute 100 ml of **Ultracoat Clean Polish** with 10 litres of water and apply an even coat on the floor with a clean micro-fibre applicator or a well-wrung cloth.

Cleaning and maintenance of floors with a high volume of traffic

Before applying the product, the surfaces to be treated must be thoroughly cleaned to remove all traces of dirt, dust, etc.. Use **Ultracoat Universal Cleaner** to completely clean the surface so that a good adhesion is formed with the **Ultracoat Clean Polish**.

On floors with a high volume of traffic we recommend using undiluted **Ultracoat Clean Polish**.

CONSUMPTION

80/100 m²/litre for each coat without diluting the product. On large surfaces, we recommend using a wax-spreader machine to make application easier and to form a more durable, resistant surface.

Wait approximately 1 hour before stepping on treated surfaces. Clean tools immediately after use.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION

Ultracoat Clean Polish is not considered hazardous according to current standards and regulations regarding the classification of mixtures. It is however

Ultracoat Clean Polish

Diluting the product with clean water

Applying the diluted product to the floor with a microfiber cloth

TECHNICAL DATA (typical values)

PRODUCT IDENTITY

Product:	nonionic tenside
pH value: – diluted: – undiluted:	approx 9 approx 9
Dilution:	for weekly cleaning use 100 ml to 10 litres of water; on high traffic floors Ultracoat Clean Polish is used undiluted
Application:	microfibre applicator pad or cotton cloth
Substrate application temperature:	minimum +5°C
Package size:	1 litre
Consumption:	80-100 m ² per litre solution
Drying time:	approx. 20-30 min.
Cleaning of tools:	water
Storage:	24 months in its original packaging
Hazard classification according to EC 1999/45:	none. Before using refer to the "Safety instructions for preparation and application" paragraph and the information on the packaging and Safety Data Sheet

recommended to use gloves, eyes protection and to take the usual precaution taken when handling chemical products are recommended.
